

St. Eoghan's P.S., Moneyneena

06/09/21

Dear Parent/Guardian

I write to advise you that one of the children in P5/6 – Mrs Cunningham's class, has tested positive for Covid.

Following PHA guidance your child is therefore a close contact. Please collect your child immediately from the front playground (via Delivery Staff Car Park).

If your child has not had a previous positive PCR test in the last 90 days, he/she must now **GO HOME, book a PCR test immediately, and self-isolate until the result is available.** If the result is negative your child can return to school but must have another PCR test on day 8. If either test is positive your child must self-isolate for 10 days from the date of the test.

If, however, your child has had a previous positive PCR test in the last 90 days and is not displaying any symptoms, no action is required and he/she may remain in school today. Please contact school by telephone (028 79628008), if this is the case and your child may therefore remain in school. If new symptoms develop he/she must stay at home, get a PCR test straightaway and self-isolate until results are available.

Thank you for your support.

Mr Paschal Diamond
Principal
